

## **Heart At Its Mist**

**by Laura from West Yorkshire**

*In the beginning, a farmer in Ghana was struggling to pay,  
as the rich countries grew richer, his poverty was forced to stay.*

*But along came the word, and that was fair trade,  
Divine chocolate came to Ghana, equality began to pave.*

*Its popularity and quality, compared to others was thrice,  
A Millennium product that was worth its price.*

*Promptly, the luxurious bars, well they were to be found everywhere,  
Japan, Australia, Hong Kong all relish divinity there.*

*Alongside global success, raising national pride,  
Divine Chocolate's scrumptious, heavenly taste, forced our eyes open wide.*

*Today people savour the sweet little bar, but yet there's a twist,  
as it's from the movement with a heart at its midst.*

*And so whilst Divine chocolate offers such a rich, luscious treat,  
Savour mostly the knowledge of the injustice it helped to defeat.*
